I respectfully urge the FCC to reject the NAB's petition 04-160. I am an OTR driver that needs and deserves the services that XM satellite radio provides. XM INSTANT TRAFFIC and WEATHER allows me the opportunity to preplan my trips by choosing the best routes to avoid delays to better serve my customers by having consistent on time delivery. I cannot get this service from local radio stations until i am in their service areas. At that time it would be to late to pick a better route.
